SUMMARY

Frontend Developer with hands-on experience in designing and implementing responsive, user-friendly web applications using React, Next.js, and Tailwind CSS. Skilled in converting designs into high-performance, SEO-optimized websites with a focus on accessibility and user experience.

EXPERIENCE

Self-employed | Remote | April 2024 – Present

• Personal Portfolio

[Visit live](#)

Designed and deployed a personal portfolio website using HTML5 and CSS3 to showcase projects and skills, with a responsive design for seamless viewing across devices. Ensured optimal performance and cross-browser compatibility for an enhanced user experience.

• Tributify

[Visit live](#)

Worked on the front-end development of Tributify using HTML5, CSS3, and Bootstrap, focusing on creating a responsive design for a smooth user experience on all devices.

• Ai Chat-bot

[Visit live](#)

Created a practice project for a customer support system using Retrieval-Augmented Generation (RAG) and OpenAI models to deliver accurate, real-time responses. Built a user-friendly interface with HTML, CSS, and JavaScript, and used Node.js and Express with cosine similarity for efficient vector-based search and response relevance.
